Had this about eight months. Mainly use it on a camping trip. The charging port is the part that impressed me most.	Absolutely love it! Great product, great price, great seller. Buy it now!
Great, arrived on time and works well.	Worst purchase. Poor quality item. Totally disappointed. Not recommended at all.
Decent while cooking dinner, though developed a rattle in the bass after two weeks. The bass driver is still holding up at least.	Excellent! Very good product with superb finishing. Worth every penny!
